

A reprieve for high school kids - Back to school!!

The month of September is very significant in the students' life as it is this month they take pleasure to greet and wish their teachers for Teachers' day. But September 2021 was more special because, as per Government order, physical school was reopened was class IX-XII after long indefinite pandemic lockdowns. Amidst 100% compliance with COVID safety SOPs, Equitas Gurukuls welcomed all the children. Although students expressed their discomfort with the Covid safety norms, still they were happy to once again come back to physical school, connect with friends and teachers and get back to real life, away from the monotonous glaring at mobile screens for long hours.

Teachers' day Celebration:

September 5th, every year is celebrated as Teachers' day in commemoration of Dr. S. Radhakrishna's birth anniversary. All the teachers at Equitas Gurukul gathered for a brief celebration that comprised of a message from the school Correspondent, brief couplets of appreciation for each teacher by the Principal, greetings & wishes- Activities by students and lastly a cake cutting to celebrate the moments of teachers and their contributions to the student fraternity.
